## Specialized Expertise from Consultation to Beyond Submission

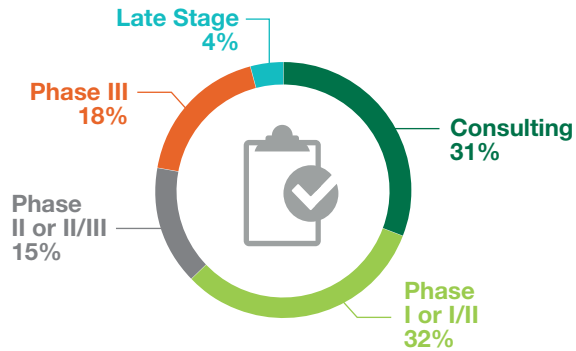

### Pre-Clinical/Trial Planning to Increase Speed

Our diverse trial experience allows us to confidently handle the most complex trials and patient populations with the attention and focus needed to navigate the endocrine/metabolic disease landscape. Veristat can determine if your study qualifies for an accelerated regulatory approval pathway and represent you in interactions with the US Food & Drug Administration (FDA), European Medicines Agency (EMA) and regional European regulatory bodies.

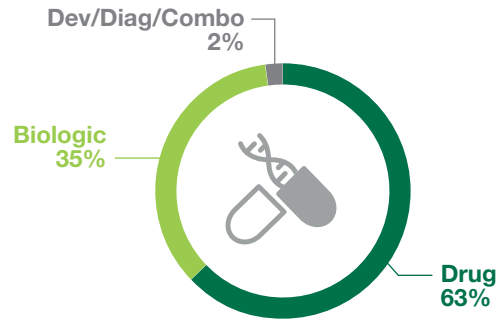

### Study Design and Methodology that Will Work

Veristat ensures that your clinical trial or program design supports your regulatory strategy, whether you plan to run a single pivotal trial or multiple trials. We offer a range of solutions – including decentralized trials, natural history studies, and a central site model – to keep your program on track.
