

The Importance of a Trusted Pharmacovigilance Partner

Veristat supports successful post-marketing pharmacovigilance (PV) expertise for pharmaceutical drugs, biologics, natural health products and medical devices.

- > For emerging organizations, Veristat experts set you up for success with dedicated pharmacovigilance expertise.
- > For mid-size organizations, we help you keep pace with evolving global/local regulatory requirements.
- > For global organizations, we improve efficiencies for inspections and safety surveillance.

Trust Veristat to help you successfully tackle your most pressing PV challenges and protect your organization from risk.

Longstanding Client Relationships Built on a Foundation of Trust

Veristat provided **case management** support for more than **27,000 ICSRs** in the past year.

- > Partial or full case processing
- > Medical assessments, coding and reportability assessment
- > Expedited reporting

Veristat has conducted **GVP AUDITS** and facilitated **REGULATORY INSPECTIONS**, including:

- > Inspection support for three global pharmaceutical organizations and two Canadian companies in 2021
 - Ensured pre-inspection readiness, expert advice during inspection, and post-inspection responses to regulatory authorities
- > Self-inspections and gap analyses
- > Vendor audits (patient support programs, license partners, etc.)

Veristat has set up comprehensive **PV and medical information PROCESSES and WORKFLOWS** for many organizations.

- > Working in accordance with regional regulatory authorities
- > Optimizing existing processes for greater compliance and efficiency

Veristat has prepared **numerous and significant RISK MANAGEMENT PLANS**.

- > Pre-approval and post-market settings
- > Focus on quality and patient safety
- > Systematically identify, eliminate and control risks
- > Developed educational materials and other risk-minimization measures
